

NATCITY NEWS

VOLUME 35

THE OFFICIAL NEWSLETTER OF THE CITY OF NATIONAL CITY

WINTER 2022

QUARTERLY NEWSLETTER

CALIFORNIA
NATIONAL CITY
1887
INCORPORATED

Welcome to the Winter 2022 National City Newsletter. National City is a community of culture and diversity. The city is an age-friendly community welcomes all walks of life, from seniors to students and our dedicated sailors.

Our town is a great place to live and gives everyone the pride to say, "I Love National City."

I would also like to remind everyone to mark their calendars for the upcoming City Holiday Closures. We will be closed on Monday, December 19, 2022, and reopen on January 2, 2023. I wish everyone a safe and joyous holiday season!

With the end of the year coming, the one word that sticks out is community. Our community has shown time after time that we are resilient and committed to a better future. Together, we can get through anything. With the pandemic behind us, we gather again to celebrate and care for one another. So as a new year's resolution, I ask every one of you to continue to be proud of our community, take care of it, take care of yourself, and remember that it takes all of us to make this a better place.

Together We Can

Brad Raulston

We are Closed!

City offices will be closed beginning December 19, 2022, and reopen on January 2, 2023, as a cost-saving measure. During this time, essential emergency personnel from the Police and Fire Departments will remain in operation, including animal control, graffiti abatement, and parking enforcement. For all emergencies, call 9-1-1. For non-emergencies and other city-related issues, call Police Dispatch 24 hours a day at (619) 336-4411. In addition, the City will have standby and on-call personnel from Public Works, Fire Investigations, and executives and managers from each department. Park maintenance will continue. Library materials will not be due during this time. The City Hall Finance Department drop box located at 1243 National City Blvd at the rear of the building facing "A" Avenue will be available to make payments. Payments will not be processed until January 2, 2023.

Date: Monday, January 9, 2023

Time: 9:00: a.m. - 3:00: p.m.

For more information or to register for the next American Red Cross Blood Drive, please visit www.redcrossblood.org or scan the QR code.

American Red Cross *Thank You!*

National City Fire Department

Blood drive was held on
September 20, 2022

Total Number of Donors: 7
Total Number of Units Collected: 5
Number of Potential Lives Saved: 15

The next blood drive is scheduled for January 9, 2023. For more information or to register, please visit www.redcrossblood.org or scan the QR Code to the right.

NATIONAL CITY FLU VACCINATION CLINIC

The National City Fire Department is happy to announce the opening of their 4th annual free flu & COVID vaccination through December 2022. This clinic will run every Tuesday from 9 am - 2 pm in the community room at Station 34, located on the corner of 16th Street and "D" Avenue (343 E. 16th St.) in National City.

Everybody is welcome, all City staff, family, and friends. No need for appointments. Walk-ins are welcome.

For more information, please visit our event calendar at www.nationalcityca.gov or contact the National City Fire Department at (619) 336-4566.

**FREE
FLU
VACCINATIONS**

Get the shot, not the flu!

Winter Holiday Safety

Winter holidays are a time for families and friends to get together. But that also means a greater risk for fire. Following a few simple tips will ensure a happy and fire-safe holiday season.

HOLIDAY DECORATING

- Be careful with holiday decorations. Choose decorations that are flame resistant or flame retardant.
- Keep lit candles away from decorations and other things that can burn.
- Some lights are only for indoor or outdoor use, but not both.
- Replace any string of lights with worn or broken cords or loose bulb connections. Read manufacturer's instructions for number of light strands to connect.
- Use clips, not nails, to hang lights so the cords do not get damaged.
- Keep decorations away from windows and doors.

HOLIDAY ENTERTAINING

- Test your smoke alarms and tell guests about your home fire escape plan.
- Keep children and pets away from lit candles.
- Keep matches and lighters up high in a locked cabinet.
- Stay in the kitchen when cooking on the stovetop.
- Ask smokers to smoke outside. Remind smokers to keep their smoking materials with them so young children do not touch them.
- Provide large, deep ashtrays for smokers. Wet cigarette butts with water before discarding.

Before Heading Out or to Bed

Blow out lit candles when you leave the room or go to bed. **Turn off** all light strings and decorations before leaving home or going to bed.

FACTS

- ❗ More than **one-third** of home decoration fires are started by candles.
- ❗ More than **two of every five** decoration fires happen because decorations are placed too close to a heat source.

NATIONAL FIRE PROTECTION ASSOCIATION
The leading information and knowledge resource on fire, electrical and related hazards

Candle Safety

Candles may be pretty to look at but they are a cause of home fires — and home fire deaths. Remember, a candle is an open flame, which means that it can easily ignite anything that can burn.

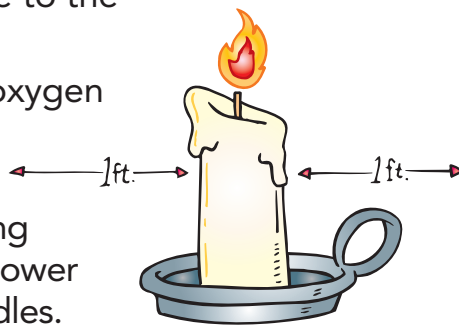

"CANDLE WITH CARE"

- Blow out all candles when you leave the room or go to bed. Avoid the use of candles in the bedroom and other areas where people may fall asleep.
- Keep candles at least 1 foot (30 centimetres) away from anything that can burn.

Think about using flameless candles in your home. They look and smell like real candles.

IF YOU DO BURN CANDLES, make sure that you...

- Use candle holders that are sturdy, and won't tip over easily.
- Put candle holders on a sturdy, uncluttered surface.
- Light candles carefully. Keep your hair and any loose clothing away from the flame.
- Don't burn a candle all the way down — put it out before it gets too close to the holder or container.
- Never use a candle if oxygen is used in the home.
- Have flashlights and battery-powered lighting ready to use during a power outage. Never use candles.

Candles and Kids

Never leave a child alone in a room with a burning candle. Keep matches and lighters up high and out of children's reach, in a locked cabinet.

FACTS

- ! **December** is the peak month for home candle fires.
- ! More than **one-third** of home candle fires started in the bedroom.
- ! **Three of every five** candle fires start when things that can burn are too close to the candle.

NATIONAL FIRE PROTECTION ASSOCIATION

The leading information and knowledge resource on fire, electrical and related hazards

Smoke Alarms at Home

SMOKE ALARMS ARE A KEY PART of a home fire escape plan. When there is a fire, smoke spreads fast. Working smoke alarms give you early warning so you can get outside quickly.

SAFETY TIPS

- Install smoke alarms in every bedroom. They should also be outside each sleeping area and on every level of the home. Install alarms in the basement.
- Large homes may need extra smoke alarms.
- It is best to use interconnected smoke alarms. When one smoke alarm sounds, they all sound.
- Test all smoke alarms at least once a month. Press the test button to be sure the alarm is working.
- Current alarms on the market employ different types of technology including multi-sensing, which could include smoke and carbon monoxide combined.
- Today's smoke alarms will be more technologically advanced to respond to a multitude of fire conditions, yet mitigate false alarms.
- A smoke alarm should be on the ceiling or high on a wall. Keep smoke alarms away from the kitchen to reduce false alarms. They should be at least 10 feet (3 meters) from the stove.
- People who are hard-of-hearing or deaf can use special alarms. These alarms have strobe lights and bed shakers.
- Replace all smoke alarms when they are 10 years old.

FACTS

- ❗ A closed door may slow the spread of smoke, heat, and fire.
- ❗ Smoke alarms should be installed inside every sleeping room, outside each separate sleeping area, and on every level. Smoke alarms should be connected so when one sounds, they all sound. Most homes do not have this level of protection.
- ❗ Roughly 3 out of 5 fire deaths happen in homes with no smoke alarms or no working smoke alarms.
