

**National City General Plan Update  
Comment Cards Received at February Community Workshops**

**Palmer Way**

Security between school & open picnic/park area which is open to the public.
Maintenance of trails? Who would be responsive for trash pick-up etc.?
Safety- north end adjacent to strip mall of Plaza.
Love the picnic areas/ gardens/ farmers market/ trails
Parking is a huge issue (circulation)

**Ira Harbison**

Public/ private partnership with Holiday Inn to access airport
Traffic- in/out very crowded & 8th St through Paradise Valley Rd is very busy at the time school traffic is also busy. Any re-routing possible?
Playground equipment & b-ball courts
Outreach to schoolboard members...

**Central**

More grocery stores like Henry's
Improve Safety at Plaza & E
Needs more Library space
More trees
If reducing 8th to 2 lanes will affect school drop pff and pick up of students, need to make sure school can continue to function.
Crosswalks or traffic lights at the intersection of Plaza & E. Im a student at Central and I have a concern people are really crazy and its hard to do all the work for one crossing guard.
Open up 'A' ave on Brick Row
Is it practical to maintain, water, and clean-up all City parks? So many, so small?

**Otis**

Post office access is essential
Another Farmers Market? This would be most sensible by the farm, but don't put our small businesses out of business. Who pays for the water on the Community Gardens & who regulated its use?
Better lighting on "D" Ave, I like the "F" ave street closure and the farmers market,
Make street lighting on 'D' between 18th & 20th <b>SPANISH</b>

**Olivewood**

Less parking spaces and more green area
Possible noise reduction @ Sweetwater football field during Pop Warner games on Saturday morning and Friday night. Maybe limit the time on when noise (loud speakers) cant start on Saturday morning.
Old Adult Education building, built in the 1930's relocate to park site or historic park site.
Pedestrian access to Olivewood Garden- not necessary- use the streets/sidewalks. It's a long way for most to walk.
Farmer's market- one just failed! We do have many small fruiteria's- don't put them out of business!

**National City General Plan Update**  
**Comment Cards Received at February Community Workshops**

Remove the overhead powerlines & underground them- Highland Ave replace them with palm trees. Possibly expand or widen sidewalks to improve walkability, more space.

**National City General Plan Update  
Comment Cards Received at February Community Workshops**

**Kimball**

Our non-profit organization would like to explore putting a bathroom in Paradise Creek Educational Park. <b>No name or information was given.</b>
Locate trail from parking lot to Hoover as close to school fence as possible. Restroom or restroom with Interpretive Center as either added component or FRC or a new building at Hoover Ave.
Where does Public Works go?
I'm all for Paradise Creek!
I love the plan, hopefully you guys can remove the concrete in Paradise Creek especialley when it runs through Kimball park.
Prefer northeast corner for Farmers market/ gathering space.
Another Farmer's market? Keep the library open 7 days a week!!!
Improved backstop for t-ball. New path northeast corner (Kimball Bowl) to discourage park users from walking on new lawn.
More green area in Old Town National City
Restrooms at Hoover Ave street closure
Open areas flood- please fix. If open to the public restrooms should be added <b>SPANISH</b>
Open area floods <b>SPANISH</b>
We need Spanish translation- we don't understand <b>SPANISH</b>
Area floods- not the best area for recreation <b>SPANISH</b>
We need translation <b>SPANISH</b>

**El Toyon Park**

Dog park is a great idea. Parking is a necessity (safety for kids). Lighting for night walking on the football/soccer field.
The horseshoe parking lot should be open on the weekends (until disk). People who are using the sports recreation areas & picnicing are forced to park along Euclid Ave & 1st and neighboring residential streets. Walking in from the perimeter parking is a hassle.
I love the dog run/dog park.
Relocate wall on tennis court away from house, toward center of park- get noise away from 4th st.
Positively give home owners on 4th a buffer zone behind our house to stop the invasion of noise and privacy issues inside our homes.
Police patrol on a regular basis
Do away with parking inside the park (horseshoe), it gives you more green space & eliminates the possibility of a child getting hit running to the swings & gives the neighbors some noise relief from boom boxes.
Provide lighting for evening soccer games. Too many non-residents here. Get rid of horseshoe drive.

**Las Palmas**

I am against closing the golf course. It serves seniors, juniors and low income golfers. It is a "resource" worthy protecting.
I love the "Community Gardens" idea!
Security between school and public?? Trail maintenance?
Community Farm is a great idea.

**National City General Plan Update  
Comment Cards Received at February Community Workshops**

**Lincoln Acres &  
Granger**

Water for gardens? Security?
I think Lincoln Acres & Granger needs more library space.

**Boards**

Improve "gateway" entrances off of Interstate 5- especially the Civic Center Dr. exit (exiting from 5 south)
More grocery stores/markets like Henry's (especially in the NW part of the City)
Improve Civic Center Dr. intersection near the 5 freeway. Make it a gateway into the City. Entrance Civic Center Dr. from I-5 to City Hall.
Encourage more health food stores to locate to National City- Henry's.
