

SDSU | San Diego State University

SDSU Brownfields Assessment
National City

Join Us!

Community Update and Exhibit

The Brownfields Assessment Project at San Diego State University welcomes the National City community to a brownfields community update meeting and exhibit

Attendees will be able to:

- Learn about SDSU's brownfield assessment grants from the US EPA and California DTSC
- Receive updates on the community-guided brownfield site prioritization list and results of environmental site assessments of pre-selected brownfield sites
- Mingle through brownfields-related exhibits created and presented by National City youth and SDSU students

What is a Brownfield?

Generally, a Brownfield is a land that is underused or abandoned due in part to concerns about potential contamination.
