**NATIONAL CITY TRAFFIC SAFETY COMMITTEE  
AGENDA REPORT FOR OCTOBER 9, 2024**

**ITEM NO. 2024-08**

**ITEM TITLE:** REQUEST TO INSTALL TWO (2) PARALLEL “30-MINUTE” PARKING SPACES IN FRONT OF V&P WHOLESALE WAREHOUSE LOCATED AT 108 W 18TH STREET TO INCREASE PARKING TURNOVER FOR CUSTOMERS

**PREPARED BY:** Carlos Perdomo, Engineering Technician  
Engineering & Public Works Department

**DISCUSSION:**

Mr. Francisco Garcia, owner of VP Resale Warehouse, located at 108 West 18<sup>th</sup> Street, has requested the installation of two limited parking spaces in front of the business. Mr. Francisco Garcia stated that the unrestricted parking spaces currently located in front of the property are frequently occupied by vehicles all day and customers have trouble finding parking near his business. According Mr. Garcia, the conversion from unrestricted parking to “30-minute” parking will provide customers ample time to shop at the business and increase parking turnover for customers.

Staff visited the site and confirmed that the retail warehouse is located on West 18<sup>th</sup> Street. West 18<sup>th</sup> Street is a 2-lane local roadway with parallel unrestricted parking on both sides of the street. Staff confirmed that the business has a driveway that can accommodate one disabled person vehicle. Staff confirmed that the commercial building where the business is located offers only one off-street parking space for a disabled person, and the on-street parking is heavily impacted. Adjacent the business, on W. 18th Street, there are approximately 33 feet, equal to one (1) parking space of unrestricted parking available east of the driveway located on the north side of the property facing W. 18th Street and approximately 28 feet, equal to one (1) parking space of unrestricted parking available west of the said driveway.

It shall be noted that per National City Municipal Code Section 11.32.190 - Curb Markings, Green curb parking zones allow for stopping, standing or parking for no longer than fifteen or thirty minutes, as marked or signed. The parking restriction is valid any time between seven a.m. and six p.m. of any day except Sundays and holidays, unless otherwise indicated on posted signage.

**STAFF RECOMMENDATION:**

Based on evaluation of existing conditions, staff recommends the installation of two (2) parallel “30-minute” parking spaces on the south side of W. 18<sup>th</sup> Street, in front of 108 W. 18<sup>th</sup> Street, in order to increase parking turnover for customers.

If the request receives final approval, the staff recommends requiring the resident to pay for the work performed by Public Works since it will benefit the single business.

**NATIONAL CITY TRAFFIC SAFETY COMMITTEE  
AGENDA REPORT FOR OCTOBER 9, 2024**

**ITEM NO. 2024-09**

**ITEM TITLE:** REQUESTING INSTALLATION OF ONE (1) PARALLEL WHITE CURB “PASSENGER LOADING ZONE” IN FRONT OF BEBA’S DAYCARE AT 204 DIVISION STREET TO PROVIDE PARKING FOR CUSTOMERS

**PREPARED BY:** Ricardo Rodriguez, Assistant Engineer - Civil Engineering & Public Works Department

**DISCUSSION:**

Ms. Kelly Piper, a member of the Traffic Safety Committee, has expressed concern with a lack of safe pedestrian crossings on Division Street. Ms. Piper stated that there is a daycare on Division Street called Beba’s Daycare (Daycare), where parents cross Division Street to drop off and pick up their kids. Because there is no crosswalk on Division Street by the Daycare, staff visited the site and spoke with Ms. Marbella Magaña, owner of the Daycare, to determine if she was interested in the installation of a “Passenger Loading Zone” in front of the Daycare. Passenger loading zones are indicated by white curbs and have a time limit that shall not exceed three minutes, per City of National City Municipal Code (NCMC) sections 11.32.180(D) and 11.32.190(A.3). Ms. Magaña stated that most of the parents who drop off and pick up their kids, park their vehicles along Canna Drive, which is next to the Daycare. She confirmed that parents rarely cross Division Street due to the lack of available parking and pedestrian crosswalk. Ms. Magaña also stated that the unrestricted parking space located in front of the Daycare is frequently occupied by vehicles. She believes that the installation of a “Passenger Loading Zone” in front of the Daycare will make it easier and safer, especially when there are multiple parents dropping off and picking up their kids. the parents to safely drop off and pick up their kids.

Staff visited the site and confirmed that the daycare is located in a residential area. The section of Division Street adjacent to the property is a two-way collector road with parking on both sides of the street and a posted speed limit of 30 mph. Canna Street, which is next to the Daycare, is a one-way residential road with parking on one side. Staff confirmed that the Daycare has a driveway with a closed gate and its business hours are 6:00am to 5:30pm, Monday through Friday.

If the request receives final approval, staff requires the resident to pay for the work performed by Public Works since it will benefit the single business.

**STAFF RECOMMENDATION:**

Staff recommends the installation of one, 3-minute, parallel white curb “Passenger Loading Zone” in front of Beba’s Daycare for the hours of 7:30am to 8:30am and 3:00pm to 5:00pm, Monday through Friday.

**ITEM TITLE:** REQUEST TO INSTALL TWO (2) PARALLEL “30-MINUTE” PARKING SPACES IN FRONT OF FIRE FORCE & SAFETY LOCATED AT 123 ROOSEVELT AVENUE TO INCREASE PARKING TURNOVER FOR CUSTOMERS

**PREPARED BY:** Carlos Perdomo, Engineering Technician  
Engineering & Public Works Department

**DISCUSSION:**

Mr. Jairo Campos, owner of Fire Force & Safety, located at 123 Roosevelt Avenue, has requested the installation of two limited parking spaces in front of the business. Mr. Jairo Campos stated that the unrestricted parking spaces currently located in front of the property are frequently occupied by vehicles all day and customers have trouble finding parking near his business. According Mr. Campos, the conversion from unrestricted parking to “30-minute” parking will provide customers ample time to shop at the business and increase parking turnover for customers.

Staff visited the site and confirmed that the business is located on Roosevelt Avenue. Roosevelt Avenue is a 2-lane local roadway with parallel unrestricted parking on the east side of the street and restricted “No Stopping Any Time” on the west side of the street. Staff confirmed that the commercial building where the business is located does not offer off-street customer parking and that the on-street parking is heavily impacted. In front of the business, on Roosevelt Avenue, there are approximately 36 feet, equal to two (2) parking spaces of unrestricted parking available.

It shall be noted that per National City Municipal Code Section 11.32.190 - Curb Markings, Green curb parking zones allow for stopping, standing or parking for no longer than fifteen or thirty minutes, as marked or signed. **NATIONAL CITY TRAFFIC SAFETY COMMITTEE  
AGENDA REPORT FOR OCTOBER 9, 2024**

**ITEM NO. 2024-11**

**ITEM TITLE:** REQUEST TO INSTALL RED CURB “NO PARKING” AT THE INTERSECTION OF HARBISON AVENUE AND E. 6<sup>TH</sup> STREET TO ENHANCE VISIBILITY AT THE INTERSECTION.

**PREPARED BY:** Luca Zappiello, Associate Engineer - Civil Engineering & Public Works Department

**DISCUSSION:**

Mrs. Pearl Quinones, a resident of 3009 E. 6<sup>th</sup> Street has requested a red curb “No Parking” at the intersection of Harbison Avenue and E. 6<sup>th</sup> Street. This request aims to improve visibility and enhance safety for vehicles exiting from E. 6<sup>th</sup> Street onto Harbison Avenue.

Staff performed a site evaluation. Harbison Avenue is a two-way collector road with parking on both sides and posted speed limit of 30 mph. E. 6<sup>th</sup> Street is a two-way local road with parking on both sides and posted speed limit of 25 mph. During the site evaluation, staff confirmed the presence of a red curb “No Parking” at the fire hydrant located on the southeast corner of the intersection. Additionally, there are visibility issues for eastbound traffic exiting E. 6<sup>th</sup> Street onto Harbison due to the electrical power poles located on the northwest and southwest corner of the intersection. Staff also confirmed that when vehicles park too close to the corners on Harbison Avenue at the intersection, the visibility for vehicles exiting E. 6<sup>th</sup> Street onto Harbison Avenue is partially obstructed.

**STAFF RECOMMENDATION:**

Based on evaluation of existing conditions, staff recommends the installation of red curb “No Parking” at the intersection of Harbison Avenue and E. 6<sup>th</sup> Street to improve visibility for vehicles exiting E. 6<sup>th</sup> Street as follows:

1. Install 26 feet of red curb “No Parking” on the north side of E. 6<sup>th</sup> Street, west of Harbison Avenue. This will result in the loss of one (1) on-street parking space;
2. Install 20 feet of red curb “No Parking” on the north side of E. 6<sup>th</sup> Street, east of Harbison Avenue. This will result in the loss of one (1) on-street parking space;
3. Install 20 feet of red curb “No Parking” on the south side of E. 6<sup>th</sup> Street, west of Harbison Avenue. This will result in the loss of one (1) on-street parking space;
4. Install 15 feet of red curb “No Parking” on the south side of E. 6<sup>th</sup> Street, east of Harbison Avenue. This will extend the existing 15 feet of red curb at the fire hydrant, making a total of 30 feet of red curb. This will result in the loss of one (1) on-street parking spaces.
