Ice skating legend and 1968 Olympic gold medalist, **PEGGY FLEMING**, who lost a sister at age 50 to sudden cardiac arrest, will be on the U.S.S. Midway signing autographs and cheering on attendees at this mass-training event.

CPR ACROSS AMERICA is a national campaign to teach hands-only CPR in conjunction with the 50th anniversary of this lifesaving skill. Hundreds of CPR mannequins will be touring the U.S., making their final stop in America's Finest City.

Together with **San Diego Project Heart Beat**, you can help create a world record for most persons trained in CPR with an introduction to AED while visiting one of the area's best attractions at this free family event.

Every participant will receive an entry in our drawing to win great prizes, including free AED's to be donated to the non-profit organization of your choice.
