Presentations:

1. Pat Beard, Redevelopment Manager introduced Lisa Schirmer, artist for the Aquatic Center project (Pepper Park). This project was approved/started many years ago, and an architect and artist were selected. The project was then put on hold due to lack of funding. It's been resurrected now due to recent bond funding. The artist gave an overview of the proposed awning and tile work. Our guest, Jesus Mendoza suggested using a wire deterrent to protect the awning from birds landing/nesting...similar to what they use at Padre Dam Water District, where he works. For more info we can contact him at (619)495-7942

2. Assistant City Manager Leslie Deese gave an overview of the Budget, Redevelopment Funds, and Department Consolidation proposals.
